Profile

Creative and detail-oriented Computer Science student who designs and ships visual work end to end: responsive web interfaces, product branding and business-facing visuals. Combines design sense with front-end skills (HTML, CSS, JavaScript), so ideas move from concept to a working, polished result. Seeking a Graphic Designer role to create clear, engaging visuals for real brands and products.

Design Skills

- Visual Design: Layout, Typography, Colour Theory, Visual Hierarchy
- UI / Web Design: Responsive Design, Landing Pages, Interface Design (HTML, CSS, JavaScript)
- Branding: Brand Identity, Product Presentation, Marketing Visuals
- Design Tools: [Add only the tools you actually use, e.g. Figma, Canva, Photoshop, Illustrator]
- Data Visualisation: Python, Excel
- Soft Skills: Communication, Client Handling, Creative Problem Solving, Business Management

Design Projects

EliteHomeFurniture – Business Website (HTML, CSS, JavaScript)

- Designed and launched a product showcase website for a family furniture shop, presenting products visually to attract online customers
- Created a responsive layout that works across phones and desktops to improve reach and engagement

Kuickoo – Co-Founder

- Co-founded the startup and shaped its product look and feel alongside business strategy and operations
- Balanced design decisions with real user and business needs

Food Delivery Web App

- Designed the interface for browsing, ordering and managing food items with a focus on simple, intuitive navigation

GitHub Explorer

- Built a clean, readable interface to search GitHub profiles and repositories, displaying real-time API data clearly

Rock Paper Scissors and Tic Tac Toe Games

- Designed and built interactive browser games with score tracking, win detection and clear visual feedback

Experience

Manager – Family Furniture Business (1 Year)

- Worked directly with customers, learning what they like and how products should be presented
- Handled sales strategy and day-to-day operations, which builds an eye for what actually sells
- Strengthened communication, leadership and decision-making skills

Education

B.Tech in Computer Science (2nd Year) – PW Institute of Innovation, Lucknow

Certifications and Achievements

- Finalist, ET GenAI Hackathon – selected among 65,000+ participants
- IBM – Learn Programming in JavaScript
